404-692-8298 | shreyashkjha@gmail.com | linkedin.com/in/shreyashjha | Atlanta, GA | US Citizen

Product and analytics professional with experience using AI, experimentation, and large-scale consumer data to influence product and growth strategy. Experienced solving ambiguous problems, defining success metrics, and partnering across product, marketing, engineering, and data teams to improve customer outcomes.

EDUCATION

Georgia Institute of Technology	3.62/4.00
<i>M.S. Economics</i>	<i>May 2026</i>
<i>B.S. Economics, Minor in Computational Data Analysis</i>	<i>May 2025</i>

PROFESSIONAL EXPERIENCE

Inspire Brands (Arby's, BWW, BR, Dunkin', Jimmy John's, Sonic)	Atlanta, GA
<i>Consumer and Product Analyst</i>	<i>Jan 2026 – Current</i>

- Own end-to-end analytics for multi-million-dollar loyalty and personalized marketing initiatives across 200M+ customers
- Supported development of Arby's in-app points loyalty program using consumer analytics to inform product decisions
- Automate key reporting workflows using Microsoft Copilot, saving 6+ hours per week and improving reporting consistency
- Analyze customer lifecycle performance (acquisition, reactivation, retention, and churn) to identify growth opportunities
- Design test-control experiments to measure incrementality and drive measurable improvements in conversion rates
- Partner with engineering, data, and marketing teams to enhance personalization infrastructure and targeting capabilities
- Deliver actionable insights on customer behavior trends, informing customer engagement processes and sales strategy

<i>Data Analyst</i>	<i>May 2024 – Aug 2024</i>
---------------------	----------------------------

- Developed a data-driven growth and market-share strategy for BWW GO, increasing penetration among consumers under 25
- Analyzed sales, transaction, and consumer data across flagship restaurant brands, supporting customer and brand strategy
- Migrated Tableau dashboards to Power BI, supporting a data initiative that generated \$1.5M in value
- Restructured a data pipeline covering 2,000+ Jimmy John's menu items, improving storage efficiency and data usability

PricewaterhouseCoopers (PwC)	Los Angeles, CA
<i>Technology Risk Analyst</i>	<i>June 2025 – August 2025</i>

- Evaluated technology, security, and operational controls for a leading global streaming platform serving 150M+ users
- Assessed key production flows to identify operational and compliance risks across legacy & emerging systems
- Collaborated with 50+ stakeholders across 4 PwC teams to remediate evidence gaps and support audit readiness
- Improved reporting and tracking workflows with AI-based process automation and proprietary risk management systems
- Synthesized technical and operational findings into risk-focused insights for client and internal leadership teams

Allianz Commercial	Alpharetta, GA
<i>Financial Analyst</i>	<i>May 2023 – Aug 2023</i>

- Evaluated financial and operational risk for 300+ Amazon Delivery Service Provider clients at accounts valued over \$150M
- Developed Excel-based SOPs to streamline client communication, improve response times, and standardize risk review
- Trained new team members on internal systems and processes to support consistent execution and team scalability

PRODUCT & LEADERSHIP EXPERIENCE

Reel Analytics	Atlanta, GA
<i>Product Lead</i>	<i>Jan 2023 – May 2024</i>

- Led an end-to-end analytics project to build and maintain a scalable database of performance metrics for 68,000+ athletes
- Built and managed ETL workflows using SQL and Excel to deliver accurate, timely metrics across multiple data sources
- Translated data quality and model findings into product recommendations for CEO Cory Yates and leadership
- Trained and managed team members on data workflows and quality standards to ensure consistent, client-ready outputs
- Led development of an ML-based player classification model using computer vision-derived athletic data

Georgia Tech NCAA Division I Men's Basketball	Atlanta, GA
<i>Statistics and Film Analyst</i>	<i>Aug 2023 – May 2025</i>

- Analyzed team film using Sportcode by Hudl to identify play patterns and deliver actionable insights to coaching staff
- Built statistical models to evaluate player performance, supporting data-driven coaching decisions for Division I competition

Health Care Research Project: Product Lead	Jan 2024 – May 2026
<i>Georgia Tech VIP Program</i>	

- Built and validated a dataset covering 200+ U.S. hospital M&A transactions to analyze consolidation and industry trends
- Presented award-winning research on CMS ownership data gaps and hospital M&A reporting issues
