Product and analytics professional with experience informing consumer product strategy for 200M+ customers and building 0-to-1 AI products. Combines experimentation and user behavior analysis with technical product development to identify customer problems, prioritize opportunities, and translate data into product decisions.

EDUCATION

Georgia Institute of Technology	3.62/4.00
<i>M.S. Economics</i>	<i>May 2026</i>
<i>B.S. Economics, Minor in Computational Data Analysis</i>	<i>May 2025</i>

PROFESSIONAL EXPERIENCE

Inspire Brands (Arby's, BWB, BR, Dunkin', Jimmy John's, Sonic)	Atlanta, GA
<i>Consumer and Product Analyst</i>	<i>Jan 2026 – Present</i>

- Own end-to-end analytics for multi-million-dollar loyalty and personalized marketing initiatives across 200M+ customers
- Supported the launch of Arby's in-app points rewards program for 17M+ loyalty members, using customer behavior data to inform product decisions and program design
- Design test-control experiments for loyalty offers, measuring 34 bps incremental sales lift and 25 bps transaction lift
- Analyze acquisition, reactivation, retention, and churn to identify growth opportunities across the loyalty lifecycle
- Partner with product, engineering, data, and marketing teams to improve loyalty experiences, personalization, and targeting
- Automate reporting with Microsoft Copilot, saving 6+ hours per week and improving consistency

<i>Data Analyst</i>	<i>May 2024 – Aug 2024</i>
---------------------	----------------------------

- Developed a data-driven growth strategy for BWB GO to increase penetration among consumers under 25
- Migrated Tableau dashboards to Power BI, supporting a data initiative that generated \$1.5M in value
- Restructured a data pipeline covering 2,000+ Jimmy John's menu items, improving storage efficiency and usability

PricewaterhouseCoopers (PwC)	Los Angeles, CA
<i>Technology Risk Analyst</i>	<i>June 2025 – August 2025</i>

- Evaluated technology, security, and operational controls for a global streaming platform serving 150M+ users
- Tested SOX ITGCs and SOC 1/2 controls across applications, operating systems, databases, and cloud infrastructure
- Assessed access, segregation of duties, change management, and security processes, identifying gaps and validating remediation with system owners
- Coordinated with 50+ stakeholders across 4 PwC teams to resolve evidence gaps and communicate findings to leadership

Georgia Tech NCAA Division I Men's Basketball	Atlanta, GA
<i>Statistics and Film Analyst</i>	<i>Aug 2023 – May 2025</i>

- Analyzed team film using Sportcode by Hudl to identify play patterns and deliver actionable insights to coaching staff
- Built statistical models to evaluate player performance, supporting data-driven decisions for Division I competition

Allianz Commercial	Alpharetta, GA
<i>Financial Analyst</i>	<i>May 2023 – Aug 2023</i>

- Evaluated financial and operational risk for 300+ Amazon Delivery Service Provider clients across \$150M+ in accounts

PRODUCT EXPERIENCE

App Store Insights	<u>shreyashjha.com</u>
<i>Independent Product</i>	<i>2026</i>

- Built and shipped a live 0-to-1 product converting App Store reviews into evidence-backed product priorities
- Designed an AI pipeline separating deterministic review ingestion, metrics, and evidence traceability from Claude reasoning for user-problem identification and product recommendations
- Implemented a prioritization model using frequency, user impact, strategic relevance, and evidence confidence
- Validated across 10 consumer apps and 2,000 reviews, iterating on evidence quality and recommendation reliability

Reel Analytics	Atlanta, GA
<i>Product Lead, Sports Business Club at Georgia Tech</i>	<i>Jan 2023 – May 2024</i>

- Led building a database for 68,000+ athletes, translating analytics into product recommendations for leadership
- Built and managed SQL and Excel ETL workflows to deliver reliable metrics across multiple data sources
- Led development of an ML-based player classification model using computer vision-derived athletic data

Health Care Research Project	Atlanta, GA
<i>Product Lead, Georgia Tech VIP Program</i>	<i>Jan 2024 – May 2026</i>

- Built and validated a dataset covering 200+ U.S. hospital M&A transactions to analyze consolidation trends
- Presented award-winning research on CMS ownership data gaps and hospital M&A reporting issues
